Cutting Diagram

From print for cuff:

Cut 1, 9 1/2 x 42 - inch strip

From print for accent trim:

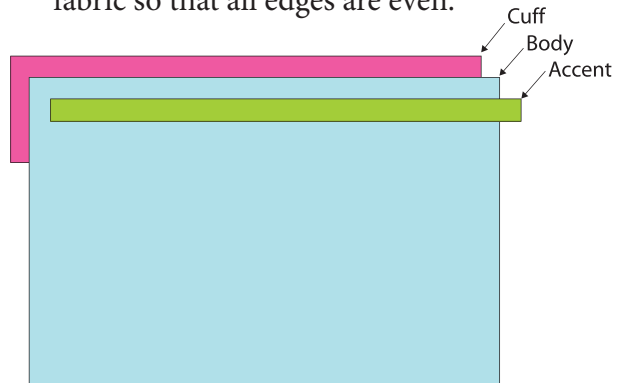

Cut 1, 2 x 42 - inch strip

## Pillowcase Assembly...

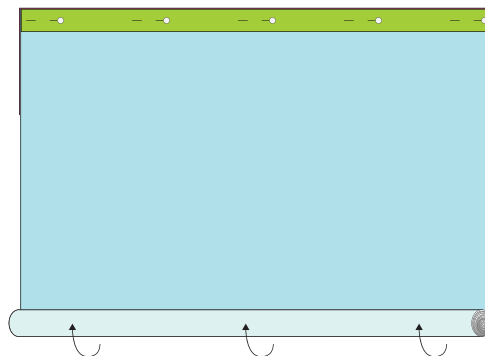

*Use 1/4 - inch seam allowance throughout, a small stitch length, and press seams open.*

- Lay the cuff strip, **right side up**, lengthwise.

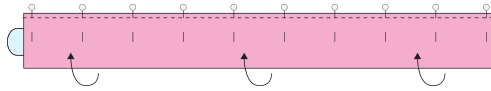

- Lay the body fabric, **right side up**, on top of the cuff strip so that the top edges are even.
- Press the accent strip, **wrong sides together**, lengthwise and lay it on top of the body fabric so that all edges are even.

- Use a few pins along the top edges to hold all the layers together.
- Beginning at the bottom, roll the body fabric up toward the top pinned edges.

- When you can see the bottom edge of the cuff, gently pull the cuff over the rolled body fabric to create a tube. Pin well making sure not to catch the rolled portion of the body fabric in the seam.

- Stitch  $\frac{1}{4}$  - inch along the top edge of the tube. You will be stitching through 5 layers...cuff, body, 2 edges of the accent fabric and then the other cuff edge.
- Gently pull the body fabric out of the tube and press the accent strip away from the cuff.
- Fold the pillowcase **wrong** sides together. Make sure to match the cuff and accent pieces along the side. Pin as needed. Sew a **scant**  $\frac{1}{4}$  - inch seam down the side and then across the bottom of the case.

\* Remember you are sewing on the **right** side of the fabric!

- Turn the pillowcase **wrong side** out and press.

- Sew a **very generous**  $\frac{1}{4}$  - inch seam down the side of the pillowcase and then again across the bottom of the case being sure not to catch the previous seam.

\* Remember this time you are sewing on the **wrong** side of the fabric.

- Turn pillowcase **right side** out and press.
